

# The Wound Care Course

(Not affiliated with WCC certification)

## Course Description

This 2 day program is an interdisciplinary activity addressing appropriate assessment and clinical management of all types of chronic wounds. Academics include: physiology of wound healing, general principles of wound care, in-depth discussion of various wound types, topical wound care, and advanced wound care modalities.

*Completion of this course does not constitute certification or credentialing.*

## Objective

Upon completion of this activity, the participant should gain knowledge of chronic wound care leading to an improvement in patient care.

## Who Should Attend

Physicians, nurses, physical therapists, and other health care professionals who provide chronic wound care.

## Tuition

\$375 per person

## Location

This is a live-streaming course, conducted over the Zoom meeting platform.

## Schedule

Lectures will begin on Saturday at 9:00 a.m. Central Time. The course ends at 4:30 p.m. Central Time on Sunday.
